

CHEF PETE'S FAMILY FEAST

Are you still hungry for more
water saving information?
Then visit these places of
water conservation!

SWEETWATER WETLANDS: These wetlands are located just off Prince Road, west of I-10, on the east bank of the Santa Cruz River. The City of Tucson created these artificial wetlands to help clean up wastewater. Treated water is released here, to be further purified by natural processes. The wetlands provide good wildlife habitat - a great way to reuse water in our desert environment.

ARIZONA - SONORA DESERT MUSEUM: 2021 North Kinney Road. Drive west on Speedway, through Gates Pass, then right on Kinney Road. This renowned zoo, natural history museum and botanical garden features exhibits and interpretive signage describing the importance of water conservation in the Sonoran Desert. You can learn more water saving tips.

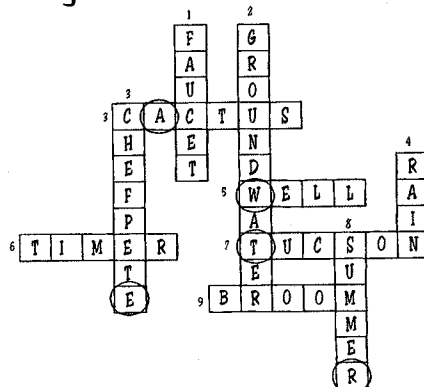

TUCSON BOTANICAL GARDENS: 2150 North Alvernon Way, between Grant Road and Pima Street. Tucson Botanical Gardens offers specialty gardens including a Xeriscape Garden. Learn how to "garden in style" without lots of water. Discover ways to design water - saving landscapes with native desert plants and proper irrigation methods.
